# The Summer Data Collection

Has your class got a bad case of summer-itis? Use all of that energy for some good learning with this high-interest set! Spend a few minutes with these 7 data collection activities each day, and then use the included cover to assemble the graphs into a class book!

**Teacher Directions:** Print graphs and tally charts in color on cardstock. Laminate them so you'll be able to use them year after year. To complete the graphs, have children write their initials in a box or color it. If you choose to bind your completed graphs into a class book, one very easy way is to glue the cover to the front of a pronged folder. Then hole punch the pages and enclose them in the folder.

Thanks for your interest in this product! I hope that you'll enjoy using it with your class! Please take a look at more freebies and other products for primary math and literacy at

It's summertime, it's summertime!  
 We get to stay up late!  
 When you stay up late, would you rather  
 catch fireflies or watch a movie?

Let's make a tally chart!

 <p>I love to catch fireflies!</p>	
 <p>I love to watch movies!</p>	

Now let's turn our tallies into a graph!

Fireflies												
Movies												

Which way did most of the children in our class choose  
 to have fun when they stay up late? \_\_\_\_\_

Let's think of 3 more ways to have fun when you  
 stay up late! 1. \_\_\_\_\_

2. \_\_\_\_\_ 3. \_\_\_\_\_
